I wish to present to you my upcoming Korean single release 지구에서 놀지마

I am a reggae singer from Denmark, living in Seoul since 2013.

The single I wish to release in South Korea, is made in collaboration with Nockwon Sung, who has translated one of my songs into Korean. The song was recorded in December 2015. I also have an album, in English language, ready for global release through my own label in Denmark. The album contains 11 new songs including the original version of 지구에서 놀지마 entitled "Children Don't You Play On Earth". Stylistically the album is a mix of modern roots reggae with added elements of pop and electronica.

A brief presentation of myself: I have a Master from Rhythmic Music Conservatory in Copenhagen, Denmark. Married, 2 children. Since the 90's I have released a number of albums and singles in Denmark, most notably with my former band "Bass And Trouble". I have toured with major reggae artists such as Mykal Rose, Ray Darwin and Natasja. I am a former member of acapella group "Singers" who released the album "Breathing" in South Korea in 2004 on the Sky Music label. Furthermore, I have collaborated with "Ska Four Ensemble" on their album 스카포 앙상블 from 2014.

It is my wish that MusicCube and I can work together for my korean debut single.
